

G258r The 'Holy Grail' of Modern Guernsey Notes Discovered

© Steve Norman

At last, A £1 Guernsey Replacement note bearing the signature of Bethan Haines has been discovered and for that I must sincerely thank the staff at Guernsey Post. I had informed them that such a note had yet to be located. They must have checked many thousands of Guernsey £1 notes to find this one. However, it wasn't just one found; they detected twelve in total. I am now the proud owner of Z 121210 and the consecutive note Z 121211.

The series of Replacement numbers used by DLR appears to have followed on from the previously issued Clark Replacement £1 notes as the highest serial number I have found in that run is Z 118564. If you want to add an example of G258r to your collection you'll need to contact Guernsey Post as soon as possible. Another mystery solved!
